

Our mission

The mission for Ultimate Beds® is to set the standard in producing the best quality mattresses and bed bases for our clients. Our products are designed and made with health and quality as priority.

We will always:

- › Produce the most comfortable, healthy beds available.
- › Manufacture products free from chemical toxicity.
- › Deliver high quality products with little or no adverse environmental impact.
- › Provide our customers with a high level of service to ensure the correct Ultimate Beds® mattress is selected for the individual needs of you and your family.
- › Offer manufacturer direct pricing. No large retail mark-ups are added to the price. The end result is great value beds at the highest possible quality for our clients.

ultimatebeds®

The perfect mattress.

DISTRIBUTED BY

www.ultimatebeds.com.au

Ultimate Beds® use only the best products and processes available.

Healthy, extremely comfortable, superior quality and affordable.

✓ COMFORT

Healthy, extremely comfortable and superior quality.

100% breathable and never hot.

Our mattresses are designed to promote perfect posture when sleeping, whilst reducing pressure on the entire body. As not all of us are built the same, some of us can have specific comfort or special needs in a mattress. We can work with you to custom design a mattress to suit your individual needs.

✓ QUALITY

Our mattresses are never wrapped in plastic. All mattresses are delivered in a breathable fabric mattress bag to avoid plastic smell and toxicity.

Our mattresses are never vacuum-packed. Some manufacturers do this to save on freight and warehousing. Vacuum packing can lead to cell wall collapse and sagging.

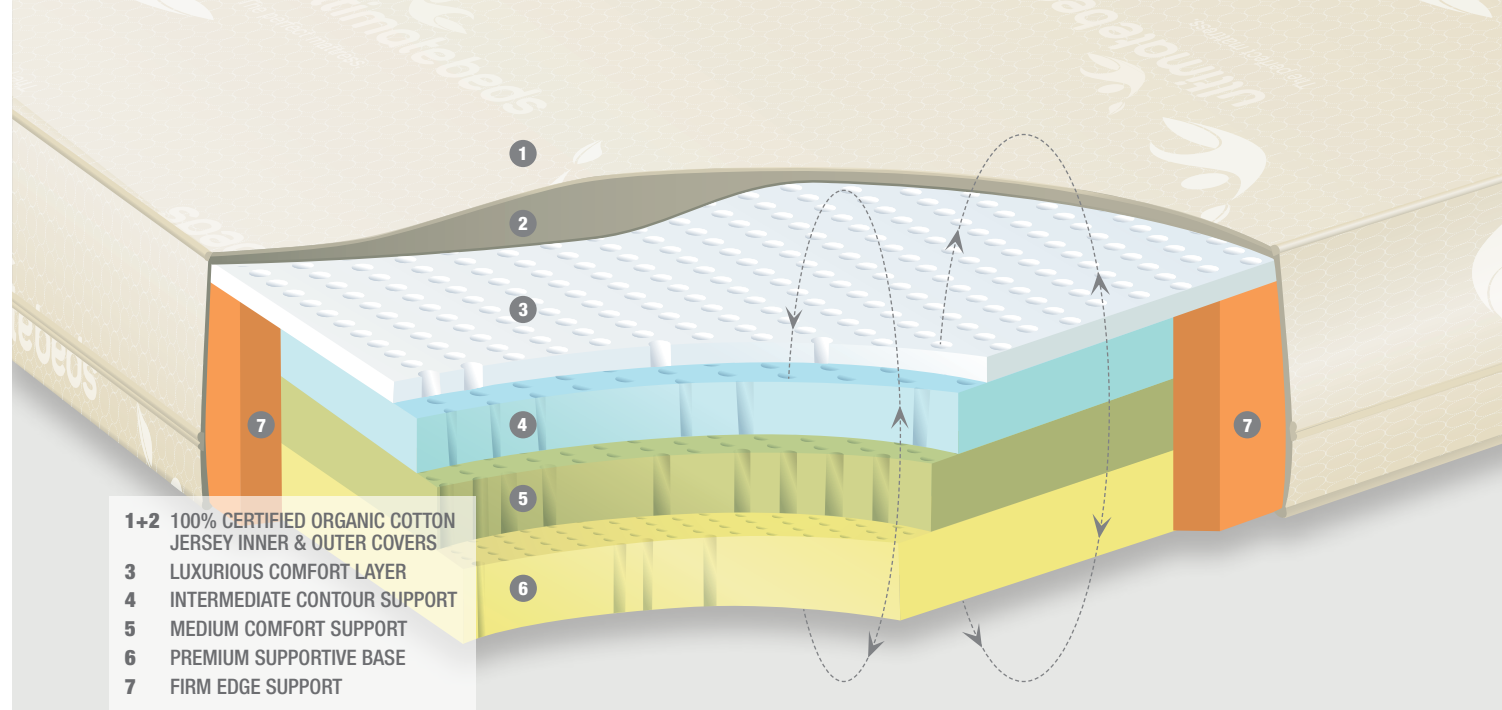

We use only the best market-leading Australian-made breathable Visco foams, bonded with 100% non toxic water-based adhesive, and vented for extra breathability, with softer zones for higher pressure areas.

No need to turn our mattresses (you may rotate them – head to foot if you wish).

✓ AFFORDABLE

Affordable pricing – we manufacture and sell direct to you.

Proudly Australian made. We believe in supporting jobs and industry in Australia.

Ultimate breathability. Never hot.
We only use Australian made – 100% Certified Organic Cotton.

Ultimate Beds® innovative mattress design and technology includes our exclusive zoning. This allows your body to relax in total comfort, but with correct posture. You can rest assured knowing that each one of our products has been designed from initial concept to be healthy and free of toxic chemicals.

No toxic solvent glues or imported foams are ever used in our products. Our products are manufactured with minimal environmental impact and our foams are approved by the National Asthma Council Australia and by Good Environmental Choice Australia (GECA).

Our mattresses do not contain any metal or metal springs, giving additional comfort and health benefits.

HEALTHY, COOL AND COMFORTABLE, THE ULTIMATE AIRFLOW DESIGN ALLOWS FULL AIR CIRCULATION THROUGH THE ENTIRE MATTRESS, ELIMINATING ANY BUILD UP OF EXCESS BODY HEAT OR MOISTURE.

State-of-the-art exclusive combination of premium non-toxic and breathable foams are further enhanced by being additionally ventilated, using our Ultimate Air Flow design. This allows full air circulation through the entire mattress, eliminating any build up of excess body heat or moisture.

Ultimate Beds® mattresses have covers which are made from pure 100% certified organic cotton. These covers are removable, which allows for proper airing of the mattress core. In addition, the mattresses have firm edges on all sides as an added support feature.

For your peace of mind, our mattress cores come with a 10 year warranty.
